OUTSIDE THE BOX

In the language of cabinetry, a 'box' is a single, conventional cabinet – many boxes combine to create a kitchen or bath. This booklet gives you an overview of the Showplace offerings that go outside, **or beyond** the basic cabinet box. Elegant, lovely and practical additions to your home design that will create a distinctive continuity between rooms. Tie your vision together across varying spaces. And express your unique personality at the same time.

ISLANDS AND ISLAND END CAPS

A kitchen island adds more than visual appeal to your home. A well-designed island adds useful counter space along with additional storage and display opportunities.

Showplace islands make adding all of these benefits simple. Start with one of our pre-designed islands, or create your own. As with almost all of our products, you can choose your wood, door style, and finish options. Design your space to meet your needs.

MURPHY BEDS

Murphy Wall-Beds from Showplace can be completely customized in your choice of wood, style and finish. You can add display or storage spaces as shown here, and dress it up as much or as little as you please. Sized to precisely fit your space, our Wall-Bed cabinetry has top-quality construction backed by a limited lifetime warranty.

Unlike sofa beds and futons, Murphy beds don't use a folding mattress so there are no bars or lumps to sleep on. Use any queen mattress up to 11" thick for a comfortable night's sleep. The folding support leg is angled to prevent stubbed toes, and the powder-coated aluminum mechanism is lightweight, rated to support up to 2000 pounds.
